Configuring a new dashboard installation can be a daunting task, given all the available options from Classic Dash. By way of example, we’re dealing with three panel finishes, typically 15-18 gauge styles, and a host of accessories.

We’ve prepared this Application Guide to help simplify the process. You’ll also find our website a useful tool, as you can click on the desired panel finish, then select a gauge style, and a sample will be presented.

Next on the Guide is a description of what the package contains, followed by a list of available gauge options (some panels can accommodate either 3-3/8" or 5" diameter speedometer and tachometer, as well as 2-5/8" or 2-1/16" gauges).

Classic Dash has developed some other special wiring kits, including one for use when a late model LS motor is installed in an early Chevy.

GPS speedometers are becoming increasingly popular, and Classic Dash has developed a special kit that ensures that a quality satellite signal will be transmitted to the GPS.

Our technicians will gladly assist anyone with configuring or installation questions. They’re available from 8 AM to 4 PM (Pacific) on Monday through Friday, or can be reached by e-mailing info@classicdash.com.

AM = Auto Meter

COMPLETE PACKAGE COMES WITH...

- 5" Speedometer
- 5" Tachometer
- 2-1/16" Fuel Level Gauge
- 2-1/16" Oil Pressure Gauge
- 2-1/16" Water Temp. Gauge
- 2-1/16" Volt Gauge

Gauge size options:  
- 6-gauge panel with 3-3/8" and 2-1/16" gauges
- 6-gauge panel with 5" and 2-5/8" gauges

Control options:  
- N/A

Vent options:  
- Available with or without vents

Wiring options:  
- Gauge wiring harness*
- Turning Signal, High Beam & Parking Brake Indicator (LED) Kit*

*Auto Meter electric gauge packages come with a wiring harness plus water temp and oil pressure sending units. However you must purchase a speedometer sending unit to match your transmission or a GPS receiver.

Mechanical gauge packages do not come with a wiring harness.

Steering column undercover is INCLUDED with purchase of dash panel.

- 2-1/16" Volt Gauge

Control options: N/A
Wiring options:
- Gauge wiring harness*
- Turning Signal, High Beam & Parking Brake Indicator (LED) Kit*

*Auto Meter electric gauge packages come with a wiring harness plus water temp and oil pressure sending units. However you must purchase a speedometer sending unit to match your transmission or a GPS receiver. Mechanical gauge packages do not come with a wiring harness.

Applicable Accessories:
- GPS speedometer interface module
- Electric speedometer sending unit
- Speed sensor pigtail GM 4LE60/4LE80
- Gauge wiring harness w/LED kit
- Speedometer adapter for mechanical gauges
- Power Plus 20 series wiring kit
- LS engine tach wire harness
- LS plug and play tach adapter and harness
- LS motor installation kit
- LED and terminal kit
- Tach adapter
- LED gauge light dimmer switch

**Applicable Accessories:**
- GPS speedometer interface module
- Electric speedometer sending unit
- Speed sensor pigtail GM 4LE60/4LE80
- Gauge wiring harness w/LED kit
- Speedometer adapter for mechanical gauges
- Power Plus 20 series wiring kit
- LS engine tach wire harness
- LS plug and play tach adapter and harness
- LS motor installation kit
- LED and terminal kit
- Tach adapter
- LED gauge light dimmer switch
Applicable Accessories:
- GPS speedometer interface module
- Electric speedometer sending unit
- Speed sensor pigtail GM T56
- Gauge wiring harness w/LED kit
- Speedometer adapter for mechanical gauges
- Power Plus 20 series wiring kit
- LED and terminal kit
- LED gauge light dimmer switch

Upgrade to 0-90 ohm fuel sender may be required with certain gauges.
1957 Chevy Bel Air or Nomad

AM = Auto Meter

COMPLETE PACKAGE COMES WITH...

- 5" Speedometer
- 5" Tachometer
- 2-1/16" Fuel Level Gauge
- 2-1/16" Oil Pressure Gauge
- 2-1/16" Water Temp. Gauge
- 2-1/16" Volt Gauge

Control options: N/A
Vent options: Available with or without vents
Wiring options: μ Gauge wiring harness*
μ Turning Signal, High Beam & Parking Brake Indicator (LED) Kit*

*Auto Meter electric gauge packages come with a wiring harness plus water temp and oil pressure sending units. However you must purchase a speedometer sending unit to match your transmission or a GPS receiver. Mechanical gauge packages do not come with a wiring harness.

Applicable Accessories:

- GPS speedometer interface module
- Electric speedometer sending unit
- Speed sensor pigtail T56
- Gauge wiring harness w/LED kit
- Power Plus 20 series wiring kit
- Mechanical speedometer cable adapter
- LED and terminal kit
- LED gauge light dimmer switch
